OFFICIAL SUSTAINABLE PROGRESS PARTY PLATFORM

Party Positions:

Party Leader: Umar Khalil

Campaigns Director: Aadil Monir

Communications Director: Oromiya Ali

Operations Director: Yousef Ibrahim

Policy Advisor: Maryam Khalil

CANDIDATE INTRODUCTION

Umar Khalil, leader of the "Sustainable Progress" party, is an electrical engineer with a solid background in renewable energy industries. His professional journey reflects a deep commitment to economic progress through sustainable practices, driven by a belief in government facilitation as a key driver of innovation.

As a member of the Canadian youth, Umar Khalil understands the unique challenges and aspirations of younger generations and feels the urgent need to create a future where sustainability and economic growth go hand in hand.

Umar was also nominated as a Board Member to his local Masjid. He helped funding, took on the role of website updates and development and started programs for the younger community members to give them a third space where they can develop bonds and further their connection to the community.

His leadership focuses on harnessing green technology to build a prosperous Canada, ensuring that today's policies lay the foundation for tomorrow's advancements.

SUSTAINABLE PROGRESS PARTY

Main Message

We are the Sustainable Progress Party, unwavering in our commitment to crafting a prosperous, sustainable, and resilient future for every Canadian.

Our mission is to drive forward economic growth, environmental stewardship, and social equity through innovative and forward-thinking policies that meet the needs of both present and future generations.

We envision a fair, sustainable, and resilient Canada, where every citizen not only survives but thrives, and where opportunities for success are accessible to all. Our dedication to these principles is the foundation of a stronger, greener, and more just Canada for today and tomorrow.

SUSTAINABLE PROGRESS PARTY

Platform Points

Economic Growth and Fair Employment

We will drive the green economy forward by implementing supply-side policies that pave the way for economic prosperity in the sustainable energy sector. Using the following strategies:

- Lowering taxes for working youth and entrepreneurs willing to take on green energy solutions and startups
- We believe in a market-driven approach to creating green jobs, fostering innovation, and securing Canada's economic future.
- We will work alongside companies to develop and implement these solutions, ensuring that economic progress is not sacrificed for sustainability but enhanced by it.

SUSTAINABLE PROGRESS PARTY

Climate Change and Environmental Sustainability

EV Sharing and Sustainable Transportation: We will advance EV sharing and sustainable rideshare solutions in partnership with public transit systems like TransLink, promoting investments in scooters, bikes, and other eco-friendly transportation modes. This initiative will reduce emissions and improve accessibility for all Canadians.

Sustainable Construction: We will subsidize builders who use sustainable materials and meet energy-efficient quotas in constructing homes and buildings. This policy ensures that our built environment supports our environmental goals.

Environmental Education: We will promote school curricula that prioritize environmental sustainability, equipping the next generation with the knowledge and tools to tackle climate change effectively.

SUSTAINABLE PROGRESS PARTY

Nuclear Energy: We will introduce nuclear energy into Canada's power grid, reducing dependency on carbon-producing fossil fuels and ensuring a reliable, low-carbon energy supply.

Social Equality and Affordable Housing

Support for Working Youth: We will lower taxes for working youth, promoting economic stability and giving young people more financial freedom to invest in their futures. This policy is central to fostering a generation of young professionals who are empowered to engage in green careers or start their eco-friendly businesses.

Green Innovation Incentives: By reducing the tax burden on young professionals and aspiring entrepreneurs, we will align our economic goals with fostering innovation in green technologies and sustainable practices.

SUSTAINABLE PROGRESS PARTY

Scholarships for Sustainability Studies

We will offer scholarships to individuals from lower socioeconomic backgrounds who are pursuing studies in environmental and sustainability fields. This initiative will cultivate the next generation of leaders in green innovation, ensuring that opportunities are accessible to all.

SUSTAINABLE PROGRESS PARTY

Budget Breakdown

- Travel and Accommodation (8%): Campaign-related travel and accommodation.
- Staff Salaries (8%): Compensation for our dedicated team.

SUSTAINABLE PROGRESS PARTY

Flagship Policy:

“Green Growth Empowerment Policy”

Our flagship policy focuses on lowering taxes for working youth and individuals who want to start green startups. By creating a favorable tax environment, we will empower the next generation to lead in sustainable industries, driving both economic growth and environmental responsibility. This policy will simplify regulatory processes, reduce bureaucratic red tape, and ensure that small businesses and entrepreneurs can thrive in Canada’s green economy.

Through these initiatives, we aim to create a "Sustainable Progress" where every citizen has the opportunity to thrive in a society that is just, equitable, and sustainable. Our vision is of a Canada where progress and prosperity are shared by all.

**Join us in building a Green, Brighter, Better future for
Canada.**
